

*Technical and Optical Films Engineering and Manufacturing*

## **NovoGenio Quality Policy**

NovoGenio is an innovative and technological Company devoted to the development and manufacture of Polymeric Technical Films.

At NovoGenio we work to achieve the excellence of our Products and Services, and for that reason, we have implemented and maintained a Management System based on the ISO 9001: 2015 Norm.

Our strengths make us a creative, flexible and efficient Company, capable of facing with the opportunities and problems that arise in the development of our daily work. NovoGenio aspires to be a leading Company in the area of Polymeric Technical Films, as well as a technological reference, with an international recognition.

NovoGenio is committed to accomplish applicable legal requirements, the requirements of the members of its Management Board, and with the requirements of the organization processes, as well as with the continuous improvement of its Quality management system.

In Cartagena, Spain.
